Resume [public portfolio PDF / 公开简历](#)

Profile / 个人简历

CS undergraduate focused on practical AI workflows.
Current interests include applied AI, computer vision, local LLM applications, and turning models into usable interfaces, scripts, and delivery flows.

哈尔滨工业大学（深圳）计算机科学与技术本科生。当前关注应用 AI、计算机视觉和本地大模型应用，更希望把模型能力整理成可使用的界面、脚本和端到端流程。

Selected Projects / 项目

Wafer Defect Detection
YOLOv8, Streamlit, Aliyun PAI
Industrial-style computer vision prototype focused on small-target defect detection and cloud-to-local delivery.

智能晶圆缺陷检测系统
YOLOv8, Streamlit, Aliyun PAI
面向工业场景的视觉检测原型，关注小目标缺陷检测，以及从云端训练到 Windows 本地交付的流程。

Silicon Diaries
Ollama, Qwen/Llama, psutil, Python Logging
Local LLM experiment that monitors CPU, memory, uptime, and generates first-person system diary entries.

硅基日记
Ollama, Qwen/Llama, psutil, Python Logging
本地大模型系统日记实验，监控 CPU、内存、运行时间等状态，并生成第一人称日记。

AI Campus Assistant
LLM, workflow, knowledge base, structured output
Prototype direction for organizing campus notices, deadlines, courses, and activities into actionable workflows.

AI 校园助手
LLM, workflow, knowledge base, structured output
面向校园通知、DDL、课程和活动信息整理的 AI 助手原型方向。

Skills / 技能

Languages / 编程语言	Python, C++, TypeScript, JavaScript
AI / ML	PyTorch, YOLO, OpenCV, Local LLM, Ollama
Application / 应用构建	Streamlit, Python Logging, psutil, API integration
Tools / 工具	Linux, Git, Vite, Vercel, Aliyun PAI

Currently Building / 正在推进

Improving public case studies, documenting real project evidence, refining local LLM automation ideas, and making repositories easier to run and evaluate.

正在完善公开案例、补充项目证据、打磨本地大模型自动化想法，并让仓库更容易运行、理解和评估。

Updated June 2026 / 2026 年 6 月更新。This resume avoids unverified awards, internships, or metrics. / 本简历不写未验证的奖项、实习或指标。
